*Nehemiah Chapter 6*

Questions for personal or small group study and reflection:

1. What was the most satisfying project you have completed? What made it so special?
2. How complete is your defense against those who would sidetrack you when you are doing God's work? What weak spots in the wall of your heart need shoring up?
3. In going about doing good, when have you been tempted to settle for second best? What kept you from dropping some merely good projects and attempt a truly great project, worthy of your best effort?
4. How do you distinguish between what is God's will and the words of a misguided person?
5. How do you handle distractions, false rumours and slander?
6. What importance do you place on setting goals and making them? Why? Are you accountable for those goals? To whom?
7. In what ways do you or can you involve God in all your projects?
